

**Life Quest USA, Inc.**

**Job Specification:**

**Job Coach/ Prevocational Support Staff—**

Vocational staff members provide assistance and training in job related and pre-employment skills to individuals with acquired brain injuries living in the community. This may include direction in compliance, attendance, task completion, problem solving, social interaction, and safety issues on the job or at a training site. It can also include the development of social skills related to success at maintaining employment such as teaching proper grooming habits, time management, job search skills, social interaction skills, and exploration of other interests. These services may be provided exclusively at a job.

All employees must have a valid Connecticut driver's license, as well as a clean driving record. All employees must also have access to a safe and reliable vehicle with proof of current registration and current insurance.

All employees must be able to lift 50 lbs or more several times a day if needed.
